I'm currently working on Competitive Programming...

I'm currently working on being more efficent on Microsoft.net I'm looking to

collaborate in an Open - Source Project (newbie) ...

I'm looking for help with Backend Development !

Ask me about anything, I am happy to help, only if the ball is in my court!

Fun-Fact: I've 13 Reasons Whyÿÿ to live Happy & Money is a one of them ...

I interesting in Web development I

achieved some of basics related to developing web .

ÿ I started learning c++ and I'm good at organizing code using OOP.

ÿThen I learned Algorithms which has an important role to improve efficiency of

processing of code .

ÿThen learned Data Structure and using the appropriate structure to deal with problem.

ÿ I learned cÿ, which I can use to develop web apps, desktop apps, mobile apps,

games and much more.

ÿ I still learning database (SQL) management system (DBMS)

which can help me building the create, store, update, and retrieve data.

ÿ I am also inteseted in solving problems on different websites like (codeforces, hackerrank,leetcode)

ÿ I am working on developing my skills to be creative and successful in my field ,I hope I become an Excellent and creative backend developer (ASP.net).

Thanks for reading ÿÿ
